

Get Account Notifications

USE THESE SIMPLE STEPS TO GET STARTED

The USAgencies Online Banking system allows you to set up alerts for your accounts.

You can have a text message or an email sent to you when your loan payment is due, when your balance falls below a certain threshold, if there was a deposit made to your account, or for many other areas.

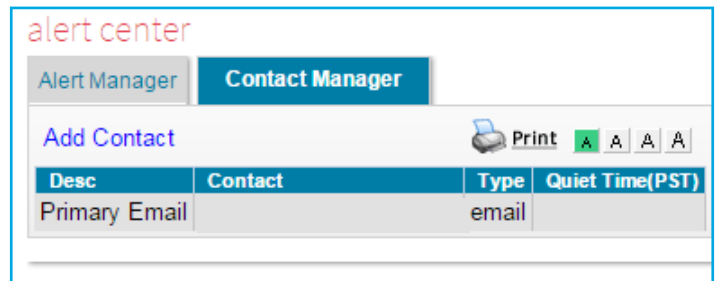

Keep up-to-date on your finances using these handy account alerts. Here's how to set up Alerts on your account:

- 1 » To set up alerts, visit USACU.org and log into Online Banking using your member number or username and password.
- 2 » Once logged in, navigate to "User Options" in the menu at the top and click on "Alert Center."
- 3 » Click on "Contact Manager," then on "Add Contact" to add your email address, mobile number, or both, and click "Submit."
- 4 » Go back to "Alert Manager" and click on "Add New Alert." Select the alert you would like from the drop down, any details of the alert, and then how you would like to receive the notification. Click "Submit."

Your alerts are ready to go!

You can set up as many alerts as you'd like.
